# Competitions

At any given time hardly you may have more than 5 major competitions. To be a successful business you need to know the competitions.
Competition not only pushes us to make better products and services but also help the whole business to grow. There are five major areas that you are competing with another business: Reputation, Quality of products or services, price, customer service, and location and accessibility of the business. Most people rather to shop from businesses that are closer to their places.

**Competition 1:**

Reputation:

Quality of products or services:

Price:

Customer service:

Location Accessibility:
